ADD A STYLISH DESIGN TO YOUR KITCHEN! **VESTEL BUILT-IN DISHWASHERS**

Product images are representative. White covers used in product visuals are not included in the product.
BUILT-IN OVENS
**Colorful TFT-LCD Interface**

Very stylish, very practical. With the buttons around the extended screen, you can navigate effortlessly in the menu and read the information about the programs you choose with ease.

**Wide Internal Volume**

Thanks to their larger internal volume, Vestel built-in ovens provide more baking room area, so it offers energy efficiency while cooking.

**Digital Timer**

With the digital timer you can adjust your oven. At the end of the set time, your oven will only give an audible warning or it will stop by itself. It depends on what option you choose.

**Catalytic Cleaning**

The catalytic side and rear panels trap the impurities that are formed during the cooking process and thus do not require cleaning inside the oven.

**Mechanical Timer**

With the mechanical timer you can adjust your oven up to 100 minutes. At the end of the set time, your oven will give an audible warning.

**Special Interior Glass Coating**

The inside heat of the oven is reflected through the special coating applied on the inner glass window; High temperature values are preserved in the oven, and the oven outer surface temperature reduces. Thanks to the dirt-repellent feature of the special coating, it is easy to clean and saves time.

**Steam Cleaning Feature**

Let your oven clean itself; you can just enjoy your meal. Water helps to soften remaining dirt with steam.

**Chicken Turnspit and Kebab Making**

Vestel ovens are specially developed for spit roasted chickens. All you need to do is skewer the chicken onto the spit and place it into the special turning tool inside the oven. Your roasted chicken is ready in just 14 minutes!

**Bread Making**

Whole grain, wheat, white does not matter. Prepare your own bread yourself! Rest your bread dough for 30-40 minutes. Bring the oven’s switch and thermostat settings to bread icon position. After the preheating is completed for about 5 minutes, put the dough on the third row of the oven. After 18-20 minutes of cooking, your homemade bread will be ready.

**Pop-in Pop-out Stainless Steel Buttons**

Create stylish details in your kitchen! PIPO stainless steel buttons add distinctive ambiance to your oven and kitchen.

**Removable Oven Covers**

With just a few moves, you can easily remove the inner glass from the oven door, effortlessly clean and replace it with the same ease.

**Easy Removable Side Wire Shelves**

The side wire shelves can be easily removed and washed in the dishwasher.

**A Energy Class**

With special door construction, insulation and large internal volume, Vestel A and A+ energy class ovens preserve the heat in the furnace for a long time. This saves energy compared to standard products. It contributes to both your budget and the environment.

**Oil Filter**

Prevents the reaching splashing oil to the fan blade during baking, thus it makes your oven life longer.

**Telescopic Tray System**

Thanks to the specially designed shelf, you can pull out the food inside the oven and push it back. The food moves in a balanced manner thanks to the shelf. So you can cook a safe and practical without putting your hand into the oven.

**Cold Cover**

The glass cover, consisting of 3 glass layers, keeps the high heat inside the oven. This saves energy so that you can cook your food efficiently. In addition, it does not transmit heat to the outer surface, which prevents your hand from burning when you hold the lid.
Meat Sensor
Thanks to the Meat Sensor, it is now very easy to make
dishes that will make professional cooks a bit jealous.
All you have to do is put the meat sensor into the
meat and start the oven in the manual cooking menu.
With meat sensor, the meat in the oven will be cooked
properly. Once you reach the desired cooking level, your
oven will stop by itself.

Self-Off Feature
Vestel Ovens assume that you are forgotten when
didn’t make adjustment for a long time. If you
forget to close the oven, thanks to this smart
feature, your oven will shut itself down after 6
hours.

Pizza Function
Thanks to Pizza Function, you can get perfect
cooking for various pizza recipes in a short time.
Your delicious pizzas are ready in 15 minutes.

Express Cooking
It runs your microwave oven with maximum power
and allows your food to be prepared quickly.

Automatic Cooking Programs
With microwave automatic cooking function,
you can easily activate the oven by selecting any
program from 8 automatic cooking programs.

Drying Function
Thanks to Vestel ovens, you can dry your vegetables
and fruits in a more hygienic environment and you
can save them for a long time. What you need to
do, you can set the oven switch and the thermostat
setting to the drying function by selecting the time
specified in the guide according to the type of food
you place on the grill.

Automatic Defrosting
With this function you can easily solve your frozen
food.

Yogurt Making Function
You can now make your own yogurt at home. In
this function your oven will come to the optimum
temperature for yogurt fermentation.

Warning Signal
Automatic cooking, defrosting, or after the set time
is complete, the buzzer sounds. The oven door
allows you to remember by giving a warning every
two minutes until the door is opened or the cancel
button is pressed.

Function
With 8 different cooking functions, you can cook
various dishes and pastries in the most delicious
way.

**Induction Cooker**
Manufactured with 100% Vestel technology. High efficiency with low energy consumption: 40% less than electric oven, 55% lower energy consumption than gas oven and faster cooking. It is the safest and most easily cleaned type of hobs thanks to the non-heating glass surface.

**Smart Control Panel**
Thanks to the unique control part placement of this product, you can easily tell which button controls which zone.

**Front Touch Control System**
Slider touch remote control provides ease of use.

**Flame Failure Device**
When the flame is turned off unintentionally, the gas safety is switched on, cutting the gas to remove.

**Timer and Audible Warning**
In induction and touch-controlled vitroceramic hobs, you can adjust your hobs for up to 99 minutes thanks to the timer. At the end of the time, the buzzer will only give an audible warning, if you want it will stop by itself.

**Auto Power Off**
In the induction hobs, it assumes that the product has been forgotten when the setting is not changed within a certain period of time. It will be closed for safety purposes when determined period of time for each heat stage passed.

**Rapid Heating**
In induction and touch-controlled vitroceramic hobs, this feature can be switched on at every level of heating.

**Wok Warmer**
The wok allows to wrap high temperature around the pot. In this way, it prevents the food from losing its vitamins and aroma while cooking it in a short time. It provides delicious high-quality cooks.

**Intelligent Standby**
With this feature in induction and touch-controlled vitroceramic hobs, cooking can be stopped; You can continue cooking at the time you left.

**Remote Control Lock**
Thanks to this lock in the induction and touch-controlled vitrochemical hobs, the selected settings can not be changed.

**Plus X Design Award**
The Plus X Awards is of the biggest international competition. Sustainable designs with ergonomic, ecological, high quality materials are rewarded.

**Reddot International Design Award**
It is the most important design award in the international platform of Nordrhein-Westfalia, which is considered as the center of designing.

**One touch ignition**
You can easily burn the stove by just one touch.
AOB-9125 W

**General Features**
- Burner configuration: 5 Gas (Including 1 Wok)
- Frontal button control system
- Black Glass Surface
- Cast Iron pan
- Powerfull Cooking Up to 4.5 kW
- Gradual power increase (Wok)
- One-touch ignition

**Accessories**
- Cleaning spatula
- Moulding Coffee Pot
- Wok adapter

AOX-7225 W

**General Features**
- Burner configuration: 5 Gas (Including 1 Wok)
- Frontal button control system
- Stainless steel buttons
- Cast Iron pan
- Scratch resistant surface
- One-touch Ignition

**Accessories**
- Moulding Coffee Pot
- Wok adapter

AOB-6430 SMART

**General Features**
- 4 Induction Zone
- Touch Control
- Synchronized Dual Heating Zone Control
- Black Glass Surface
- Child Lock for Control Panel

**Technological Features**
- Automatic Cooking Functions (Frying, boiling, warming, chocolate melting)
- Quick heating
- Saucepan Recognition Sensor
- Timer and warning signal (sound)

Accessories
- Cleaning Spatula
Timer and Auto Power Off
In foods like fish/fry, even if cooking is over, smoke and smell continue to due to the hot oil. When you activate this feature, hood stops spontaneously by collecting smoke and smell.

Steam Sensor
Detects moisture and steam and automatically activates the hood when necessary.

Ambience Lighting
You can operate independently the lights behind the hood.

Aluminum Cassette Filter
Multi-layer washable aluminum cassette filters can be easily washed in the dishwasher.

Silent Operating Feature
Thanks to the high performance engine and product design used in the Vestel hoods, the sound level is minimal even if the product power is the last stage. So it creates a calm and pleasant environment for you and your loved ones.

Filter Occupancy Indicator
It is the display that allows you to get maximum efficiency from your hood. It informs you when the filter needs to be washed and / or changed.

Smart Night Illumination
Thanks to this unique smart feature of Vestel hoods, Your hood recognizes you; along with your movement, provides the illumination you need in the kitchen.

Anti-Rollback System
Thanks to this system, the odor is extracted by the one-way air flow. Dirty air from the outside is blocked.

BUILT-IN DISHWASHERS
EcoWash
Eco-friendly EcoWash technology provides washing performance when dishwasher is not fully loaded, only lower basket or upper basket or both are used with half load if necessary by using half load option. EcoWash technology saves energy and water by reducing energy and water consumption due to load options.

Smart Wash
The sensors in the machine measure the degree of contamination of the dishes and determine the optimum wash temperature and duration for your dishes according to this measure. By this time you save the time and energy and you get the best washing results that can be achieved.

Delay Timer
You can start the program by postponing it until the desired time of day. So, you can program your Vestel dishwasher according to your life.

LED Screen
You can easily track the duration and remaining time of the selected program from the LED display.

Jetwash 18 Min.
With this fast program, you can clean the dishes like less and/or recently soiled (coffee, milk and tea etc.) in only 18 minutes. This program is one of the fastest programs in the world. It cleans your dishes with 4 place settings capacity in 18 minutes. With this option, water reaches optimum temperature to dissolve the combined detergent ideally and eliminates such drawbacks and assures maximum performance.

A+++ Energy Performance
Friendly technology new Vestel Dishwasher, allows you to reach in the most efficient and economical way with great results.

DD Inverter Motor
With its Digital Drive inverter motor technology, Vestel Dishwashers provide speed control in different washing steps thanks to special brushless motors, silently rinse your dishes with the highest performance.

LED
You can easily track the duration and remaining time of the selected program from the LED display.

15 people
Large capacity for 15 people. Thanks to Vestel’s 15-person capacity dishwashers, you will save even more time and energy by washing more dishes at once.
